

PREVENTION AND OCCUPATIONAL HEALTH

Manual handling

DURATION	GROUP SIZE	VENUE	VALIDATION
1 day	8 to 15 people	At your site	KABUTO certificate

Who it is for

Handlers, storekeepers, workshop staff

Prerequisites

None

Learning objectives

By the end of the course, the trainee is able to:

- Explain in simple terms why backs get injured
- Analyse a real workstation, its loads and its heights
- Apply the principles of physical safety and economy of effort
- Use the handling aids available on the site

Content

- Back anatomy explained simply: what damages it
- Analysis of your real workstations, loads and heights measured
- Principles of safe movement and effort saving
- Handling aids available on your site
- Exercises with your own loads, not demonstration boxes

Teaching methods and resources

Face-to-face training, on your site, in French or in English. Short theory inputs and scenarios on your facilities.

Documents issued

Named certificate of attendance

Assessment

Continuous assessment through scenarios, supplemented by an individual sheet filled in step by step and given to the trainee.

Trainer

A trainer from professional emergency services: nurse, firefighter or military. Their identity, qualifications and professional liability certificate are sent to you before the session.

Price

On quotation, depending on group size, location and dates. Reply within 48 working hours.

Lead time

Quote within 48 working hours. The date is then set with you, according to our availability and your production constraints.

Accessibility

The training takes place on your premises: their accessibility is your company's responsibility. If a participant needs a learning adjustment, let us know when ordering and we adapt the course.

Training for companies and organisations only, always delivered at the client's site.
