

CASUALTY CARE

Casualty lifting, immobilisation and stretcher carrying

DURATION	GROUP SIZE	VENUE	VALIDATION
1 day	6 to 12 people	At your site	KABUTO certificate

Who it is for

Emergency response team members, site first-aiders

Prerequisites

None, apart from physical fitness for load carrying

Learning objectives

By the end of the course, the trainee is able to:

- Extricate a casualty in an emergency without worsening their injuries
- Fit a cervical collar and immobilise the casualty on a long spine board
- Lift and carry a casualty with 2, 3 and 4 bearers, stairs included
- Secure a casualty in the site evacuation vehicle

Content

- Log roll and emergency rescue drag of a casualty
- Cervical collar, long spine board, scoop stretcher, vacuum mattress
- Stretcher carrying with 2, 3 and 4 bearers, on stairs and through narrow passages
- Securing the casualty in the site evacuation vehicle
- Timed course using your own equipment

Teaching methods and resources

Face-to-face training, on your site, in French or in English. Short theory inputs and scenarios on your facilities.

Documents issued

Named certificate of attendance and assessment sheet

Assessment

Continuous assessment through scenarios, supplemented by an individual sheet filled in step by step and given to the trainee.

Trainer

A trainer from professional emergency services: nurse, firefighter or military. Their identity, qualifications and professional liability certificate are sent to you before the session.

Lead time

Quote within 48 working hours. The date is then set with you, according to our availability and your production constraints.

Price

On quotation, depending on group size, location and dates. Reply within 48 working hours.

Accessibility

The training takes place on your premises: their accessibility is your company's responsibility. If a participant needs a learning adjustment, let us know when ordering and we adapt the course.

Training for companies and organisations only, always delivered at the client's site.
